1.1.9 Crack Full Version. Admin Administrator. By  
ateraka Feb 16,.1. Field of the Invention This  
invention relates to trowel boards and methods of  
making the same and, more particularly, to a method  
of making a trowel board having opposing trowel faces  
to permit the user to use the trowel board as a trowel in  
the field. 2. Description of the Prior Art Numerous  
different types of trowels have been developed over  
the years. For example, U.S. Pat. No. 5,100,312, issued  
to Brown on Mar. 31, 1992, discloses a trowel formed  
of a plastic material having an abrasive surface which  
is intended to be used for polishing floors, walls, etc.  
U.S. Pat. No. 4,716,453, issued to the same inventor as  
in the Brown patent, discloses a trowel for use on  
asphalt roads. The trowel includes a sloping abrasive  
surface to facilitate removal of asphalt from the trowel  
as the trowel is traversed over the road. The trowel is  
formed by sandblasting of a block of aluminum to  
provide the sloping surface. U.S. Pat. No. 4,225,425,  
issued to Lewis on Sep. 30, 1980, also discloses a

trowel formed of a plastic material having a generally rectangular shape and a sharpened, sloping surface for removing asphalt from a surface to be paved. The trowel has a tapered end to facilitate insertion of the trowel into a well formed in the asphalt to be removed. U.S. Pat. No. 3,974,634, issued to Brown on Aug. 10, 1976, discloses a trowel formed of a plastic material having a sharpened, sloping surface for use in the field to remove asphalt from a surface to be paved. The trowel includes an end cover to protect the end of the trowel. U.S. Pat. No. 3,912,252, issued to Fonseca on Oct. 14, 1975, discloses a trowel formed of an elastic or malleable material having a generally rectangular shape and 2d92ce491b
