above result of our previous study  
\\[@B5\\], 5-FU was selected because of  
its ubiquitous use in routine therapy. The  
time required to complete a single  
treatment, including surgical procedure,  
was assessed. Figure [2](#F2){ref-  
type="fig"} illustrates the same strategy  
as the previous study, but in a different  
way. The strategy in Figure [2](#F2){ref-  
type="fig"} is similar to the TURP-  
based standard treatment in Table  
[2](#T2){ref-type="table"}. ![\*Flow-  
chart of treatment strategy\*]. The figure  
illustrates the strategy of the protocol

---

treatment in this study. The final treatment in this study was 30% of the total energy in each cycle, and the induction treatment with methotrexate and 5-FU was applied for 5 days. The bolus 5-FU application and the peroral continuation treatment were continued for 30 days, and the tapering treatment was applied for 20 days. The treatment consisted of multiple cycles, and the interval between cycles was one month. TURP, transurethral resection of prostate.](1746-1596-6-37-1){#F1}  
!["\*\*Flow-chart of previous study\*\*". The

---

flow-chart in Figure 1 was modified to show the protocol treatment in the previous study \[[@B5]\]. The figure illustrates the strategy of the previous protocol treatment, which consisted of a single treatment cycle, and the induction treatment consisted of 5 days of methotrexate and 5-FU. The bolus 5-FU application and the peroral continuation treatment were continued for 30 days, and the tapering treatment was applied for 20 days. The interval between cycles was one month. TURP, transurethral resection of prostate.](17

---

believes in bringing out the forgotten stories of the land. We consider visual culture as being rooted in Kerala and aiming to create awareness about our beautiful landscapes. It is also to do with the time we live in, in which visual culture has been studied and written about from a global perspective. Lemur magazine celebrates the breadth of visual culture in Kerala, and highlights its essence through the richness of
