Philips Car 400 Code Calculator Rar Thanks in advance. A: After a long time and searching here in the forum and on the web i found a little bit different radio scanner from Philips. It is for the model "CAR 400 and it has a much longer range than the normal scanners for the same model. So all my searches for it was in vain. I found this solution All i can tell you is if you like to give it a try! Keep in mind that there is a 10\$ code for it. The other scanner is from a guy called "youngmoney" but i also dont know if it is for the same model. This is his scanner: If you have any question let me know! Still, he says the long-term outlook looks bright for Canada and that the recent spate of sick quakes may have been the wake-up call some needed. "Nobody wants to think that this is the new normal," he says. Dr. Fiona David, a seismologist with the C.D. Howe Institute who has been working in Vancouver's Chinatown for decades, agrees that the area has been feeling less affected by earthquakes for the past five years or so. Ms. David says seismologists need to look for warning signs elsewhere to combat the human tendency to see a small set of frequent events as normal. For instance, there was a spike in the number of earthquakes detected in B.C. in April that was linked to construction of the Site C dam and reservoir. "B.C. has such a variety of different types of earthquakes," d4474df7b8
