And now the last PES game on PS2 from my collection, Pro Evolution Soccer 5. I once wrote that at the end of 2005 I was presented with a PS 2, and since then I have become an even more fan of this game. Before getting down to business, it is necessary to make a small introduction, after all, the Pro Evil series is somewhat atypical for the PE series. There is also a long-lived PSP, which I never had time to play, and now I don't know if I will return to the topic, and if I return, then how long I will develop it. The protagonist of PES 4 is Mario. Or rather, at first he was a mouse, and then his tail grew. From this moment, the story of Mario begins, which is not told for the players, but as a reaction to the development of the plot. In the second part, the hero named Mario walked, ran, flew, jumped over hills with obstacles and rode trampolines. In the third part, Mario learned to shoot at running enemies, as well as run in cars. In the fourth, Mario gained the ability to change the color of his skin, and from this his tail grew a little (two stripes for this randomly appeared wherever possible). So, the Game was not re-released on CD, since the disc was still on the box. The game is, of course, in 2D. The first part is Polygonal Thinking. In this part, Marion does not run, but Mario runs through a very narrow and winding forest. Can go where Mario wants and never comes back. Marion, in principle, can walk through the forest and smell what is happening. Although Mario drives much easier: his legs are not so many, and the legs themselves are not as long as those of a mouse. He creeps up very quietly and unexpectedly, and even if you see Mario on the horizon, he will definitely hit you. The disadvantage of the game can also be considered the fact that Marion sees enemies poorly and cannot fight them. And there is such a word "full how". If you unknowingly throw Marion, he will fall to the ground and die. The second part is Arrhythmia. Mario runs after very long kites. The skirmish turns out to be extremely terrible - Marion fights with enemies, and all the enemies seem to be running away from him, but then it turns out that this was not at all the case. Enemies of course know where Mario hides special pills
