AL The Forbidden City (1997, Book and. Perfectionnement de l'anglais. The Complete Self-Study Course. Perfectionnement Anglais (ISBN 9782700507256) Well, I don't speak Chinese, French, Spanish, or Portuguese, or any other foreign languages for that matter, but I did manage to listen to the recordings and I thought I'd share my impressions here.1) The audio-book does have some static, but it's a tiny amount, and is somewhat tolerable. I listened to all the recordings (3 hours and 4 and a half minutes of it) and I'm not sure I picked up on any dodgy sounds, like a weird noise or something.2) The pronunciation is absolutely spot on in my opinion, it's very fluid, and it's almost perfect.3) English pronunciation is harder to understand than a lot of the other languages, but it's definitely not hard. All the words were understandable.4) The voice is a deep voice, but it's not male, not female, not teen-age, not adult, not child, it's just the voice of a person.5) I find the recording a lot better than books (for listening to) because it's a lot more interesting, and I enjoy hearing how other people pronounce certain words. The only thing I didn't like was the flow of the language. There are way too many long pauses, and way too many words that are repeated. It's very different to watching the movie. The audio is good, but there are way too many pauses and repeats for my liking. That being said, I'd recommend the audio-book to people who have read the book (or are currently reading it). I can't really hear the differences between the audio-book and the book, besides the ones I've mentioned, so I'm not sure what my opinion would be on that. The author is obviously an expert on the English language, he has a PhD in Linguistics, and is a professor. His title is a Professor of Applied Linguistics at the University of Stirling, Scotland. He's also a published author of dictionaries and English-as-a-Second-Language textbooks. He's obviously familiar with the language, but he doesn't sound like he's reading it off a script, he just reads it naturally, which I think makes it very easy for me to understand what he's saying, and makes the flow
