As a delivery company, it goes without saying that the success of your business ultimately depends making sure that the ordered goods get to the proper recipient in a timely manner. Not only do you need an efficient tool to monitor the parcels, but you also require a solution that enables you to alert the buyers and sellers when their products reach the destination. Comes with an outdated, yet customizable interface Even though it is unpolished and old-school, the GUI is well-structured and enables you to customize the view in a way that simplifies how you find customers, orders and tasks. Moreover, you can

assign as many couriers as your company uses and configure a color code for each employee, for easier tracking and monitoring. Even though it is very similar to OrgCourier, it is important to note that the application comes with additional features that allow you to share data over the network in real-time. In fact, you can synchronize the tasks and event with ones in Microsoft Outlook and iCalendar. Alternatively, you can export the database to Excel, HTML, XML or TXT. Manage customers and orders from the same database The highlight of the application comes from the fact that it allows you to administer all aspects associated with the delivery business from the same

database. In addition to the delivery assignments, the program enables you to keep track of the status of the tasks your staff is taking care of. You should know that creating a new event is a straightforward process that entails adding the start and end-timers along with the customers' details. Thanks to the hour-by-hour breakdown display, you can be sure you are always updated and can pinpoint the courier responsible for the delivery. Then again, you should know that there is no way to verify whether the data introduced is correct or not. A simple organization for goods delivery companies All in all, OrgCourier for Workgroup is an intuitive and efficient tool that can help

you manage your delivery company better in the long run. A: This probably belongs in No, it's on-topic for here. I'd find somewhere to host it. You're going to need to share the program as an attachment. You'll also need to know if you're in the US or not, and I don't think it's the same on every website (although this might change in the future). Q
