A: There is an additional benefit when you grab pcap from Audiffex's own website, download the.zip, extract the.rar file, and run the PKG file that comes with it. I find it easy to make PKG files, open the file with 7-zip, extract the PKG file that comes in a.zip file to create a.PKG file.

Then you don't have to worry about having to extract the contents. To create a.PKG file: 1. copy the contents of a.rar file into a text file (e.g., "Audiffex Pedals-6.0.zip") 2. rename the text file to be ".PKG" (example: "Audiffex Pedals-6.0.PKG") 3. replace the contents of the text file, changing "Audiffex Pedals-6.0.rar" to ".PKG" 4. replace the contents of the.rar file with the content of the.PKG file To install the Audiffex Pedals plugin: Download a.PKG file from the Audiffex website Install Audiffex You do not have to unzip the.PKG file, or do anything in particular, just install Audiffex and you'll have the Audiffex Pedals plugin.
