Calculation of volume fraction from point counts Contents: Manual Point Counting Procedures for determining volume fraction (Part A), Manual Point Counting Procedures for determining volume fraction (Part B), Methods of Preparation of Surfaces for Surface Systems Testing (Part C), Systematic Manual Point Counts of Pit Harbors and Shallow Draxing (Part D), Interpretation of the Results of Point Counts for Slope and Surface Properties (Part E), Interpreting the Results of a Point Count for Convex and Concave Facings (Part F), Interpretation of the Results of a Point Count for Concentration (Part G), Volumetric Calculations (Part H), Calculation of Volume Fraction from Point Counts (Part I), Quality Control of the Process (Part J). (Standard) ASTM E562E562 TEST METHOD FOR DETERMINING VOLUME FACTOR BY POINT COUNT. VOLUME FACTOR. Volume fraction is the fraction of void space in a porous material. LES BOULEVARD ET L'OCEAN. Controlling the Strain Through the Rock: Production of Minerals in... With Values for the Volume Fraction of Sandstone. The Book Of The Earth. Test Method for Determining Volume Fraction by Systematic Manual Point Count ASTM ASTM International Standard. ASTM E562 - Volume Fraction of... - 1997 - ASTM International, Standard E562: "Testing and Analysis Methods for Materials and Geotechnical Engineering" by ASTM. We have a range of sample sizes of 30 different project types and 5 different geotechnical material types and cover geotechnical and non-geotechnical conditions. ASTM E562 2002. Volume Fraction of Sandstones from Point Counts. E562-02. 1999. American Society for Testing and Materials.. The most frequently used volume fraction method is the "point count method". The point count method involves counting the number of points in a given area of a section of a rock or soil and then dividing this count by the total number of points sampled over the entire section. VFR & BF - ASTM Standard Guide... Calculation of volume fraction from point counts : A ASTM E562E562 TEST METHOD FOR DETERMINING VOLUME FACTOR BY POINT COUNT. Volume Fraction. Volume fraction is the fraction of void space in a porous material. L 4bc0debe42
