You can convert images from a variety of image formats (JPEG, PNG, BMP), and you can make color adjustments, crop images, create image effects, and create new photos. Image editing allows you to add special effects to photos. Some effects are applied in a quick way. Other effects can be done slowly, over time. Some effects are time-based, while others are based on which area of the photo you are editing. You can edit entire images by coloring them, adjusting color levels, and adding and removing items. You can also combine multiple images together and save them. If you are a beginner, we recommend that you just stick

What's New In?

Working through high wire act Does the world really need another Tom Daley? It could be argued that the British Olympic diver helped define the sports-format showpiece when he clocked up an astonishing tally of seven golds in Rio. He is not yet 21, yet by his own standards he is already an old hand, and he has already completed more than 100 perfect synchronised dives with well-documented drama. But it was the Blackpool-born diver's daring, daredevil style of performance that dazzled — with him leaping from the tallest platform ever seen in sport and flipping spectacularly out of the water into the arms of a

waiting teammate. As Britain begins to ponder the significance of the closing ceremony, one aspect is impossible not to admire. There was no big screen or slow-motion replay of Daley's feats, no interviews, no lingering cameras capturing the athlete in his relaxed or determined moments. If there was one strand that emerged from the Games and was played out on social media, it was the height. Daley repeatedly used his big platform to demonstrate his prowess with a leap of nerves and drama. A one-handed flip soared into the sky. A complex three-to-two somersault, with all three legs tucked in under his body, drifted and hung ominously in the air as it went. Behind the extraordinary athlete, his mother, Sophie, sat in the stand and listened intently to the calls. Daley twice reached down to his mother as he performed, signifying his father was not with

them. In a final, glorious final, after a beautifully executed five-dive sequence, Daley was caught by his mom, jumped straight up into the air and the two of them dove into each other's embrace. And the team's video editor? Someone else. Under the bravura of Daley's displays, the need for someone to narrate them was apparent — to serve up snippets of expert analysis, remove the hyperbole, clean up the edit, offer pointers on what could be improved. The person taking the back seat was, it should be remembered, 25. And so the Daley dynasty continues. The uniqueness of the family was already apparent at the London Olympics, with Sophie (unlike, for example, her equally famous brother, showbusiness darling/heel Lindsey Vonn) sitting down to watch all the dives in the family's hotel room.
